

# SAT Prep 2011-2012 Syllabus

**PURPOSE OF COURSE:** Taking this course will prepare you for all of the question types found on the SAT. We will analyze each of the test question areas and give special consideration to math refreshers and techniques aimed at relieving test-taking anxiety. Topics include basic and advanced math concepts including fractions, decimals, percentages, ratios, proportions, and algebraic and geometric concepts. We may also take some time to address concerns you may have in your other math classes.

## Grading

This course will require little to no homework so it is important to maximize the class time we have together. Your grade will be comprised from the following:

- π SAT practice tests-I will be looking for improvements each time you take a practice test
- π Review activities
- π Quizzes
- π Class activities
- π Binder

## Required Materials

- Pencil
- 1 in. binder
- Fully charged laptop with laptop privileges
- Willingness to work with others
- Positive attitude
